We offer the widest range of metal straight line belts, turn belts and woven wire cloth products available from a single manufacturer:

- Precision self-tracking belt systems
- Spiral cage & turn belts
- Sani-Grid® rod-style belts
- PacTite® flat wire belting
- Woven wire metal mesh belts
- DuraHinge® strand belting
- Chain-driven metal belts
- Eye-Link® modular belt systems
- Ceramic & metal furnace belts
- Filter leaves
- Filtration screens
- Wire cloth fabrications
- Architectural mesh
- Sprockets & machined rolls
- Tracking systems & belting accessories

The customer's trusted partner since 1911.

As global competition becomes ever more intense, manufacturers and processors seek faster, more economical and innovative ways to increase production and improve quality. They want to eliminate unscheduled downtime and minimize repair expenses. And they look to the industry's leading suppliers to help make it happen.

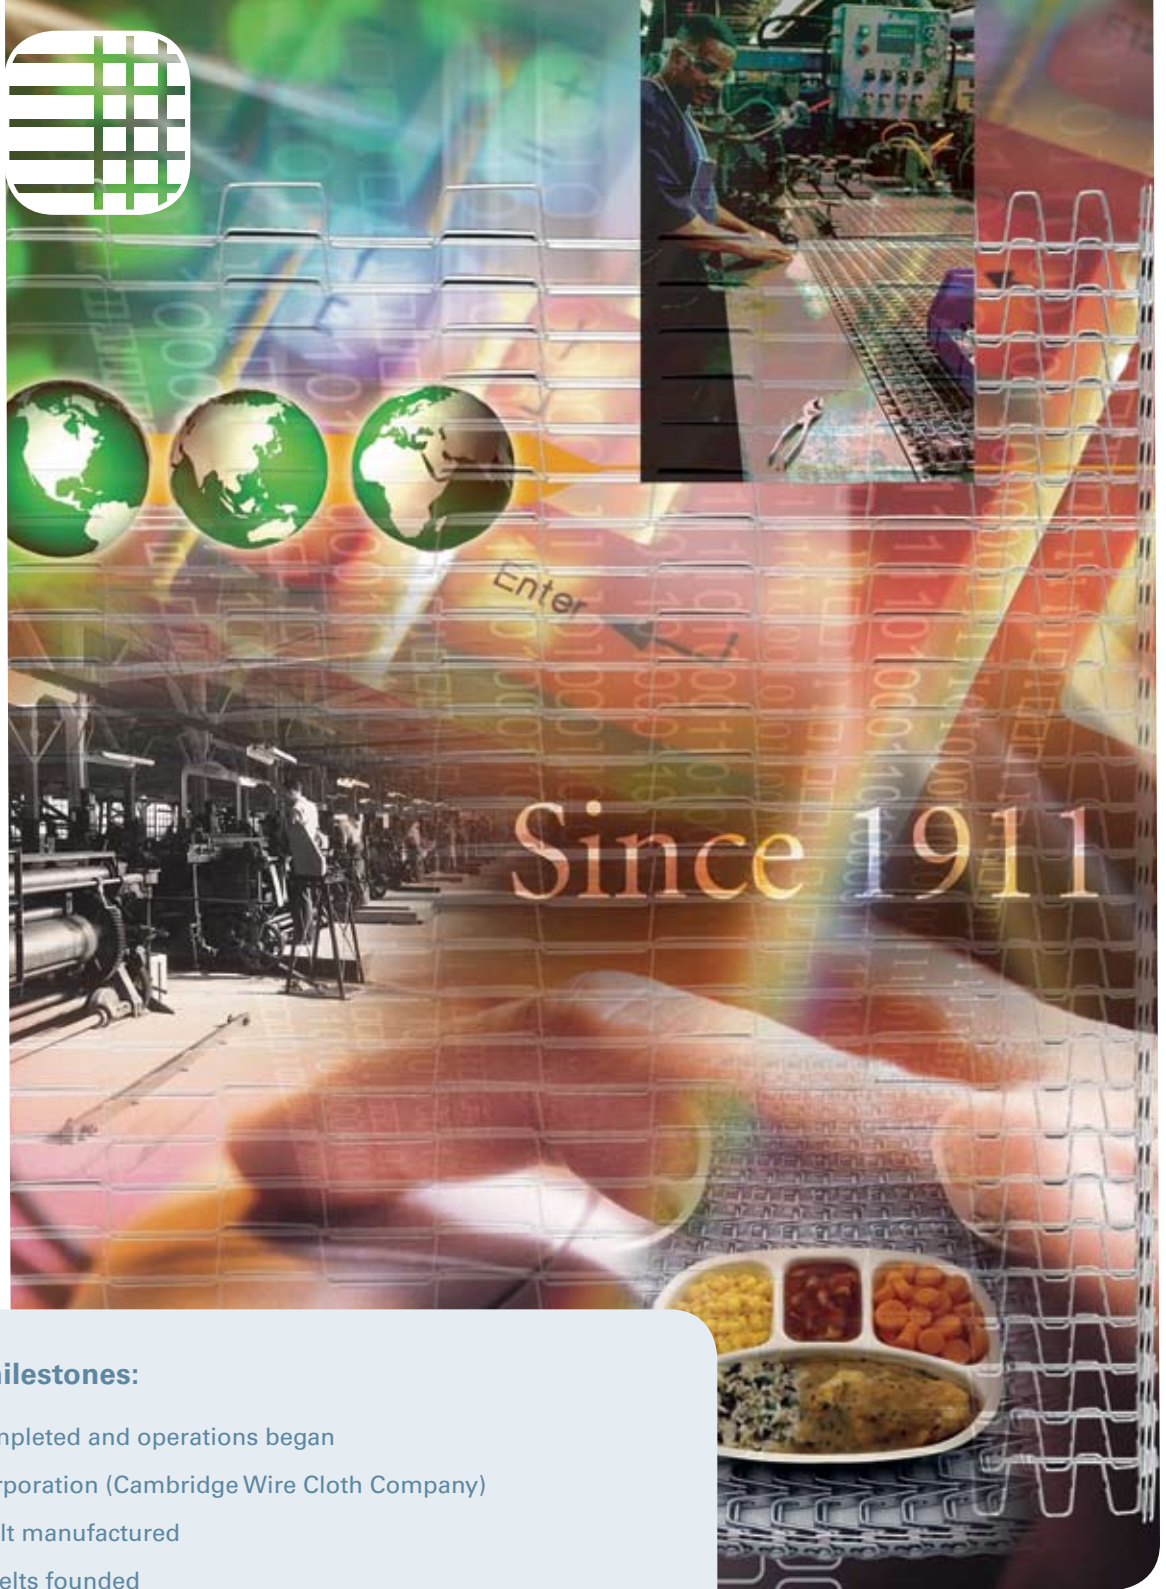

That's why companies all over the world rely on Cambridge International. With a heritage that extends back to 1911, we pioneered the development of precision-engineered metal mesh conveyor belts and wire cloth fabrications. No other supplier possesses our background, capability and credibility. Because of our single-minded devotion to our craft, we continue to lead the industry today – nearly 100 years after our founding.

Superior engineering, high-quality materials and meticulous assembly procedures assure our customers that Cambridge products are *the standard by which all others are judged*. Confidence in our products and in our expertise translates into close customer relationships that span decades, in facilities all across the globe.

Being an industry leader means continually staying in the forefront of innovation. We recognize that success is based on meeting our customers' needs not just today, but tomorrow as future requirements change.

Because of our many decades of expertise, innovative engineering and dedication to listening to our customers, we can develop new solutions for customers ... advance new applications in emerging industries and markets ... and partner with Original Equipment Manufacturers in their product development activities.

Linking proven products, quality service and innovative thinking to deliver results beyond our customers' expectations.

Key company milestones:

- 1911** Building completed and operations began
- 1915** Year of incorporation (Cambridge Wire Cloth Company)
- 1923** First wire belt manufactured
- 1953** Alloy Wire Belts founded
- 1964** Manufacturing and sales operations established in Mexico City
- 1972** Maryland Wire Belts founded
- 1993** Manufacturing operations established in Matamoros, Mexico
- 1996** Alloy Wire Belts acquired by Maryland Wire Belts
- 1998** Merger with Maryland Wire Belts ... creation of Cambridge International
- 2002** Architectural division established
- 2006** 100% ownership in Brazilian manufacturing operations secured

The customer's trusted solutions provider.

Some may see us as a manufacturer of wire cloth and conveyor belt systems. But in fact, we're far more than just a product line – we deliver results.

Every day, we customize our products for specific applications to help our customers attain new levels of efficiency and productivity in their operations.

We begin by asking questions and listening to get to the heart of what our customers *desire* to accomplish. Then we evaluate all the variables – from

Solutions-oriented... not product-driven.

product characteristics and temperature ranges to load factors, airflow and surface requirements. We employ sophisticated computer-based systems to ensure we provide the optimum solution for each unique application.

Designing precision and quality is one thing. Manufacturing it is quite another. Our substantial investment in production technology ensures the closest tolerances and consistent, repeatable quality. We build every product for efficiency and longevity, with rigorous quality control and testing procedures that ensure mechanical integrity and optimum performance.

We create customers for life.

Our commitment to customer intimacy helps us forge many mutually beneficial relationships with manufacturers, distributors and OEM partners. Our application engineers are key to this process ... and they're ready to provide assistance to you whenever needed – over the phone, online or onsite. Following each installation, we stay in touch in order to ensure flawless system performance.

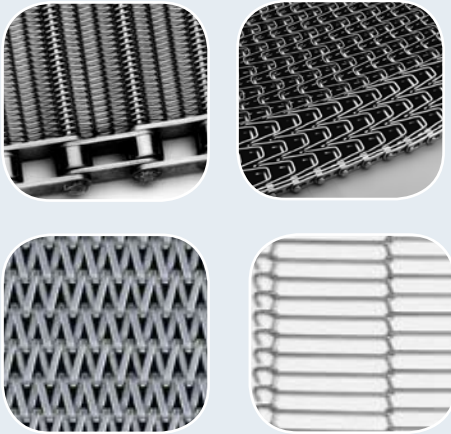

In addition, we offer a complete range of onsite technical services including evaluations of current conveyor systems, pre-installation evaluations, conveyor unit modifications and retrofits, conveyor alignment services, technical training and troubleshooting support. To minimize disruptions to your work flow and because we know after-hours emergency breakdowns can happen, our services are available “24-7-365” ... and they're backed by a 100% satisfaction guarantee.

Proof of the effectiveness of our solutions-oriented approach is the fact that many products we developed for specific applications have gone on to become recognized as established standards in the industry.

In addition to pioneering new technology for emerging markets, we serve:

- Food processing
 - Frozen & prepared specialties
 - Bakery & snack foods
 - Meat, poultry & seafood processing
 - Fruit & vegetable processing
 - Dairy products
 - Beverages & breweries
- Agricultural
- Aerospace
- Automotive
- Building & architectural
- Chemicals & petrochemicals
- Electronics, semiconductors & solar cells
- Energy
- Glass & ceramics
- Metalworking
- Mining
- Packaging

The Cambridge family of brands includes many innovative, well-known products that reflect our industry leadership. Among them are:

- Balanced Flat Seat® mesh belting
- Cam-Grid® and Cambri-Link® spiral system belting
- Cambridge® architectural mesh
- Continu weld® filter leaves
- DiaCrimp® balanced belts
- DuraHinge® strand belting
- DuraLite™ belting for spiral cage systems
- Eye-Link® modular belt systems
- Gripper® metal mesh slings
- Leading Edge® Performance Link and Performance Grid belts
- MTS® sprockets and MTRplus® drive rolls
- PacTite® flat wire belting
- Precision Belt® systems
- Sani-Grid® rod-type belts

To reach all customers ... a global presence.

With our world becoming smaller every day, we realize the importance of having a global presence to serve not only large multinational entities, but also a growing number of other customers. Today, products made by Cambridge International can be found in more than 70 countries, supported by a strong network of sales and service personnel.

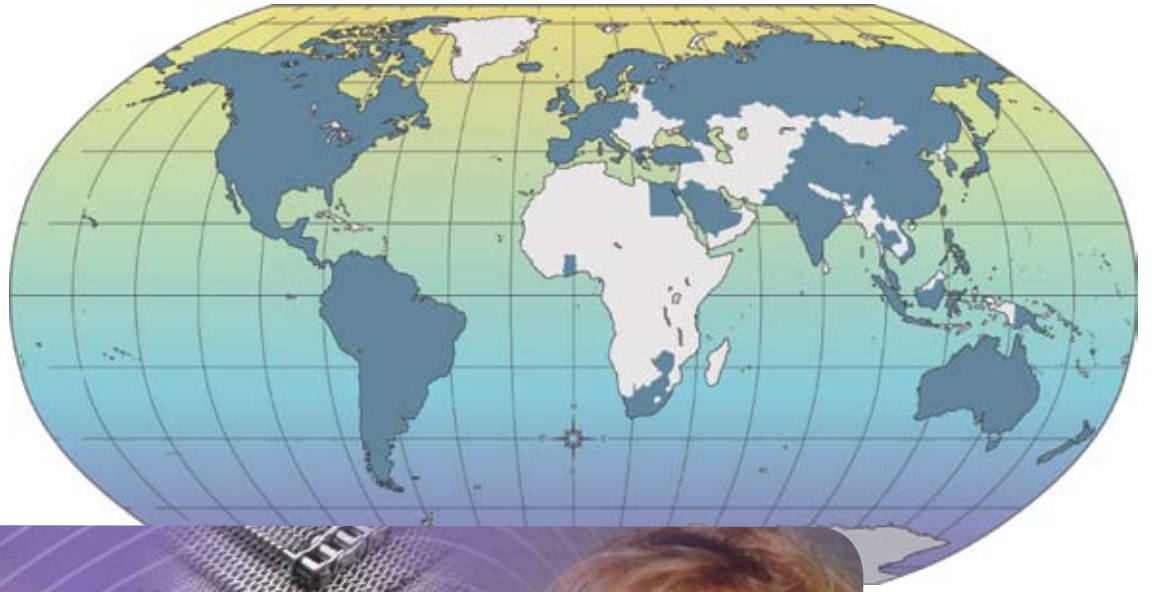

Our commitment to the global marketplace is unmatched by any other company in our industry. It's exemplified by our manufacturing and sales facilities in Mexico, operating since 1964. Our Brazil manufacturing operation, which began as a joint venture, is now 100% company-owned. And inside the U.S., our dominant market presence is supported by three manufacturing and distribution facilities – two in the East and one on the West Coast.

One source for innovation and service.

No matter where you're located, Cambridge International stands ready to provide world-class research & development, engineering, products, service and support. Whether you're a multinational organization looking for global sourcing solutions – or a company with a national or regional focus – you can count on us to deliver solutions and results.

Cambridge International is 100% committed to helping you create the technology required to accomplish your goals, or to enhance the efficiency and performance of your existing operation. It's a commitment we first made to our customers nearly a century ago ... a commitment that continues just as strong today.

Linking proven products, services and innovation.
